

Exhibition and Seminar Rates 2018

Infosecurity Denmark welcomes you for the third time to an event entirely dedicated to the IT professionals in Denmark. As exhibitor you will get a unique opportunity to meet new and existing clients for two intensive trade show and conference days in Copenhagen.

In order for exhibitors to get the most out of the trade show participation, we offer a set of innovative online tools. These can be booked as Online Exhibition Packages. To get the most out of all the options, the use of a lead scanner is essential. All packages consist of 3 licenses for the scanner, unlimited use of (digital) invitations, an entry in the digital catalogue, use of the online portal MyExpo, publicity and media campaign, use of the press module, the lead calculator and the client portal.

Do you wish to bring and build your own stand construction or order a complete package offering you peace of mind? There are various different options. Contact us to discuss your wishes and requirements.
